The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Fish cannot live in still water. Neither can progressiveness live with the man who doesn't advertise.

If the merits of the schools are taken into consideration, East Florida Seminary need have no fear of being molested.

The establishment of new industries in the South goes steadily on from week to week. The Solid South is solid for business.

Those Jacksonville fellows who undertook to let down the Barrs with that new charter, found J. Murdoch on hand ready to put them up and he is still in the fold.

Some of the leading citizens of Missouri have become aroused regarding the "toting of pistols" and have declared they will break up the practice if they have to shoot every man they find carrying concealed weapons.

The Chicago strikers have finally concluded to cease hostilities and have not gained sufficient to pay but precious little for the time lost. The strike of the typographical union for eight hours' labor and ten hours' pay is the next on the program.

The Sun labors all the time for the best interests of Gainesville and Alachua county. Some may find fault because it does not do more. But, dear reader, when you stop to think the matter over, ask yourself what you have done! Nor can it do as every citizen desires, as discretion is many times the better plan.

The Legislature, while working on educational lines, might settle the question in regard to spelling a few names of counties towns, etc., in the State. Hillsboro county is on the map, yet many papers spell it "Hillsborough." Suwanee county is on the map, but is often spelled with two "n's," while Bradentown is spelled without the "l" by the local papers.

It is gratifying to the people of Gainesville to know that the East Florida Seminary located in this city has won such favorable comment from the committee sent here by the Legislature to investigate its conduct. It also received a flattering notice from the United States army officer sent to inspect its military branch. The school is in the hands of conscientious Christian gentlemen, who are able educators, thorough in deportment. They have done their part with credit. The Seminary deserves everything asked for it.

Governor Warner of Michigan has signed a bill making an important change in the libel law of that State. It permits the defense to introduce evidence that the plaintiff has recovered damages previously for the publication of the same article or one citing the same statements. When persons finding themselves aggrieved by articles published in several newspapers go to bring suits by the wholesale in an attempt to collect an immense amount of damages, the bill permits the defendant newspaper to present such facts to the jury. The act is made to apply to all pending suits.

A RESPECTED INSTITUTION.

There is nothing connected with the East Florida Seminary but what reflects for the uplifting of the young ladies and gentlemen who are students of that institution, and goes to the making of better men and women of the students who are in attendance and who are there for the purpose of acquiring knowledge. The faculty is worthy any college in the land—earnest in its efforts to impart a fund of wholesome knowledge that cannot fail to be of use in after years, if properly applied.

Backed by the best citizens of Gainesville, endorsed by all the churches, the Seminary has almost become a part of their being, and it is owing to its existence that many owe the discipline of our young men who have enjoyed the advantages it offers for an education.

Particularly noticeable was the interest manifested on Sunday last, when the Rev. W. C. Lindsay of Ocala delivered the baccalaureate sermon to the graduating class, the large auditorium of the Kavanaugh Methodist Church being filled to its utmost capacity, although the day was oppressively hot.

There is a general interest manifested for the Seminary on account of its being so many years in our midst and the steady and healthy growth it has made along with the advancement of the State, and it is winning friends every year and making rapid steps to the front, an expansion, if you please, along educational lines, which should command the respect of every true citizen of Florida.

THE STATE PRESS.

The Gainesville Sun serves up in tabloid form the best State news column that comes to our notice.—Lakeland News.

Senator Hudson wants to enlarge the powers of the Railroad Commission. Great Goodness! We thought their heads were large enough already.—Miami Metropolis.

Speaker Gilchrist is at present entertaining quite lavishly. He evidently thinks that the best route to a man's affections lies through his stomach.—Palatka Times-Herald.

Lake Butler gets its latest legislative news from The Gainesville Daily Sun, which reaches us just ten hours ahead of the Jacksonville papers. There are no spots on The Sun.—Lake Butler Star.

The Governor's veto of that charter bill may be awfully bad on the political grafters, but in our humble judgment he has done the very best thing possible for the city.—Jacksonville Floridian.

A revivalist asked all those who wanted to go to heaven to stand up. All stood up but one man. "Why don't you stand up?" he was asked. "Well," the man said, "I'm pretty well satisfied with Crystal River."—Crystal River News.

A recent issue of The Ocala Banner contained something over forty columns of State and county tax sales, yet the "Ocala editor" tells us that Marion is the most prosperous county in the State. Phew!—Gadsden County Times.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

Owing to the fact that the government is afraid to accept rebates from the steel companies, it will buy the Panama canal supplies abroad.

PISO'S CURE FOR CONSUMPTION
CURES WHERE ALL ELSE FAILS
Best Cough Syrup. Tastes Good. Use is simple. Sold by druggists.

When it is appreciated that the Panama canal, before it is completed, will cost the people of the United States approximately \$200,000,000, or an average of \$2.50 for every man, woman and child in the country, it is probable that most people will rise up and call Secretary Taft blessed for adopting a policy which promises to save a considerable percentage of the expense, but in the meantime the stand patters and the protected industries are muttering deep thunder and are sending protests to the White House by the bushel, while the stand pat secretary of the treasury is writhing in his mahogany chair. The beauty of the situation is that even if Congress enacts a law compelling the purchase of all materials and machinery for the canal in the United States the people will have been taught a great object lesson by the action of Secretary Taft and one that it will be difficult for the protectionists to efface.

The agitation for better wages to teachers has reached our national capitol. In the argument in Congress on the district appropriation bill it was pointed out that the educational interests were not properly cared for and that the pay of the teachers was entirely too low. Champe Clark of Missouri said that "more money was being paid Washington policemen to crack the skulls of the people than was paid to school teachers to improve what was in the skulls."

\$5,000

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy. "I have suffered for 25 years with severe pains in my head, heart and back, and have tried everything I could get and could not find any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."
